

Advance-Nilfisk Parts

Advance-Nilfisk Parts - Imagine how long and tiresome it would actually be to tidy up right after a party, without help from machines. Not too long ago, the dust from carpets and upholstery had to be beat out of them by hand; brooms, brushes and cleaning cloths were the leading cleaning products at the time.

The man who established Nilfisk-Advance, P.A. Fisker, began as an electrical engineer who really liked to work on electrical motors. After establishing his business during the year 1906, he began to produce motors to drive drills, coffee grinders, fans and machine tools. Mr. Fisker's dream from the start was to own a global company selling products internationally.

The Nilfisk C1 was a tremendous breakthrough for the cleaning business. This ground breaking vacuum cleaner, invented by Mr. Fisker, weighed just 17.5 kilos and could be operated by a single individual. This invention came in a time where many cleaning machines were very big and required 4 or more operators, thus, the Nilfisk C1 changed everything and evolved the way we clean forever. The brain behind these very first cleaning machines remains unparalleled. Cleaning equipment provide a brilliant solution to an ongoing crisis; things get filthy and have to be cleaned frequently, without a lot of effort.

Little by little, the company Nilfisk-Advance developed all through the years. During the early 1980's the company grew fast when the company became a part of the NKT Group. With new owners on board, they concentrated on driving Nilfisk-Advance forward within the business, aspiring to be an active worldwide player in producing professional cleaning machines. Nilfisk-Advance is now represented in all parts of the world by gradually acquiring a lot of small companies so as to develop their product range and presence in new markets. They are really proud to offer a variety of cleaning solutions to suit each and every need.
