

Ingersoll Rand Forklift Parts

Ingersoll Rand Forklift Parts - Ingersoll Rand provides products, solutions and services so as to increase the productivity and ensure efficiency in industrial, commercial and residential surroundings. They pride themselves in delivering products so as to enhance the health, safety, comfort and security of individuals all over the globe through their four international segments.

From their Climate Solutions division comes a product line of energy efficient HVACR solutions. The Thermo King is the leading transport temperature control, while Hussman makes food merchandising and refrigeration solutions. Trane is a trusted provider of energy efficient heating ventilation and air conditioning systems, contracting and building parts support, advanced controls and services used for both commercial buildings and residential homes.

The Industrial Technologies sector of Ingersoll Rand offers products and solutions to improve productivity, operations and energy efficiency for their customers. The series of products in their line comprise: pumps and tools, and material fluid handling systems to complete compressed air systems. They have also developed Club Car, the global leader in utility and golf vehicles meant for businesses and people.

Brand names like for example Trane and Schlage provide residential solutions that provide efficiency, comfort and safety to home owners across North America. Their innovative products consist of electronic and mechanical locks, indoor air quality solutions, heating and air conditioning systems, remote home management, portable security systems and advanced controls.

The sector comprising Security Technologies provides products that ensure productive, secure and safe surroundings. This division's market leading products consist of door and floor closers, exit devices, portable security devices, electronic and biometric access control systems, cabinet hardware, steel locks, doors and frames, decorative hardware and locksets. Schlage even has products that provide time, attendance and personal scheduling systems.
